

## BARRIÈLE

MISTRAL GAGNANT

ROSE 2022

If the Rhone terrace of rolled pebbles that shelters our vineyard could speak, it would certainly tell the story of a family of winegrowers who, for 4 generations, have patiently tried to extract from this terroir the delicate and powerful expression of a vineyard. secular, son of the Mediterranean. In addition to the preservation of the winegrower's heritage, there is the protection of the little bustard, a protected bird species, nestled in the heart of our vineyards, in the Natura 2000 zone.

The mistral is the emblematic wind of our region: it sweeps the vineyard throughout the season and thus preserves it from disease, allowing our vineyard to remain healthy with very few treatments.
